

Hello Dino,

This week may have seen your desk move from the school grounds to the lounge room. With this change comes new challenges with work and in your home life. Throughout these uncertain months, we're keen to offer extra support to make your job easier and reassure students that their future will still be here once life returns to normal.

We don't have all the answers yet, however, the University is actively working through various scenarios around admissions so we're ready to prepare you if there are any changes. We're also making plans for online expo's and web presentations so your students still receive the chance to ask questions about University.

If you have any feedback or suggestions on how we can help you, our student account management team would [love to hear from you](#).

SPEAK WITH US

Aspire Early Admissions Program

Many Year 12 students are feeling anxious and uncertain about their future at the moment. One thing they can be sure about is the Aspire program.

Aspire rewards students for their leadership and community engagement with an early conditional offer and reduced ATAR into their chosen course at La Trobe, scholarships, travel funding, a support network and access to our Enrichment Program – giving them everything they need to succeed.

Many students have put their volunteering and community work on hold this year and that's okay – work from previous years is accepted including coaching, school council and many more activities. Or here are [some ideas to volunteer from home and build up experience](#).

We're opening Aspire applications early this year on 1 May. We'll also be implementing rolling offers, so for many students they'll receive a conditional offer well before September. For some of our capped courses, like Dental Science, offers will be sent in September.

Upcoming webinars and presentations

You're invited to join our upcoming webinars and get an idea of what studying our courses is like. In our next series explore the Humanities with leading academics as they discuss the world from multiple perspectives.

Discover how relevant and eye-opening degrees like International Relations, Politics and Economics or Humanities, Innovation and Technology can be.

We also have a presentation coming up on scholarships and a Carlton College information session.

Carlton College information session

Wednesday 22 April, 6pm – 6.30pm

You and your students are invited to meet Carlton College for an online information session and learn about their programs including course options, entry requirements and facilities.

Invite us into your classroom virtually

We're happy to host virtual presentations for your students on Zoom or other video conferencing tools to keep your students thinking toward the future.

Year 12 presentation

We'll cover unique aspects of La Trobe, prerequisites, VTAC applications, scholarships and more.

Discipline presentation

We focus on an area of study and provide specific information like points of difference and career outcomes.

Year 10 presentation

We'll explain prerequisites and general tertiary study information like how ATAR's work, subject selection and more.
