Hi Stephanie,

Welcome back to a new school year. We hope you had an enjoyable break.

As you know, students were receiving their university offers over the holidays. We're pleased to announce La Trobe made over 4,000 offers through VTAC in the January round to Victorian students.

This year, the courses with the largest number of offers were Nursing, Health Sciences, Business, Sport and Exercise Science, Arts, Biomedicine and Psychological Science.

Our allied health courses continued to perform extremely well. La Trobe was the most popular choice for Physiotherapy, Occupational Therapy and Speech Therapy.

We're looking forward to welcoming our new students in Semester 1.

### Book your campus tours for 2022

We're excited to invite you back to campus for tours and presentations. We can also visit your school events in person and chat with your students about university.

## Are any of your students still trying to secure a spot at university?

The last offer round is on 18 February – so there's still time to find a place at university.

### Diploma of Teacher Education

This course is a great option for students that missed out on the ATAR or missed the CASPer deadline. It allows them to study first year teaching at La Trobe and transfer into a Bachelor of Education.

## Upcoming Event

### Albury-Wodonga Campus Experience Clever

Experience Clever gives your students the chance to not only see our campuses but experience them by taking part in fun workshops led by lecturers. They'll get hands-on in workshops and discover what being a uni student is really like.

## In the news

### Development grant success

The Olivia Newton-John Cancer Research Institute and researchers from La Trobe’s School of Cancer and Medicine, have secured \$992,000 in this years National Health and Medical Research Council Grant.

### Young people drinking less

On average, young people are drinking less than their parents at a similar age. Our research suggests it’s unlikely due to government efforts, but more to do with social, cultural, technological and economical changes.
