

Activity Guide for Schools

LA TROBE
UNIVERSITY

Discipline presentations

If your students are interested in a certain area of study, discipline presentations are a great way for them to learn about what university has to offer.

In these presentations, we focus on an area of study and provide specific information, points of difference, course options, prerequisites, job outcomes and more.

Some of the presentations on offer include:

- Arts
- Business/Commerce
- Education
- Engineering/IT
- Health
- Law/Criminology
- Media and Communications
- Science
- Sport

We're very flexible and can offer a customised or combined version of any of these presentations at your request.

Delivery modes

- On campus
- On campus in conjunction with a tour
- At your school
- Video conference

Year 12 presentation

As your Year 12 students approach the end of their secondary schooling, they'll have a lot of questions about university.

In this presentation we cover unique aspects of La Trobe, prerequisites, VTAC applications, scholarships and much more.

Delivery modes

- On campus
- On campus in conjunction with a tour
- In person at your school
- Video conference

Year 10 presentation

At this stage, students are just starting to consider life after secondary school.

Year 10 is a great time to get students thinking about their future studies and help them understand their options.

We'll chat to students about what they can expect, touch on study areas and what courses might suit their interests.

We'll help them understand prerequisites and provide general tertiary study information about how ATARs work, subject selection, VTAC and more.

Delivery modes

- On campus
- On campus in conjunction with a tour
- In person at your school
- Video conference

Aspire presentation

Our Aspire Early Admissions Program recognises the difference students make in their communities.

If your students are involved in community service, coaching, school leadership, volunteering or any other type of community engagement, they may be eligible for the Aspire program.

In this presentation, students will learn what Aspire is, if they're eligible, all the incredible benefits they'll get and how to apply.

Delivery modes

- On campus
- On campus in conjunction with a tour
- In person at your school
- Video conference

Aspire drop-in sessions

Students aren't always sure where to start when it comes to writing their Aspire application.

At our drop-in sessions we'll review and offer feedback on their applications so they've got the extra reassurance they need to feel confident.

Delivery mode

- In person at your school
- Video conference

Campus tour

Let us show you everything La Trobe has to offer.

Our interactive campus tours show students what it's like to study at university and the incredible facilities they'll soon have access to. Normally hosted by a Student Ambassador, our campus tours visit the nursing labs, science labs, moot court, business school, library, TV studio and much more (depending on availability).

Delivery modes

- On campus
- On campus in conjunction with a presentation

Experience La Trobe workshops

If you'd prefer a more interactive visit, we can organise workshops with our academics so students can experience what a day in the life of a uni student is really like.

Some examples of the sessions on offer include:

- Engineering: an escape room where students see the practical application of engineering.
- Anatomy labs: students see what health students study in both the wet and dry labs.
- Nursing: we showcase our nursing practical mannequins that can simulate breathing, bleeding and more.
- Wildlife Sanctuary: students interested in animal and plant studies can tour the Wildlife Sanctuary at our Bundoora Campus.
- Archaeology: students take part in a box dig where they excavate and uncover the mystery of their site.
- Business: we guide students through a session in our simulated financial trading room.

If your students have an interest in a particular course or field, we can work with academic staff to create a custom workshop suited to your students. As the academics generously donate their time to running these sessions, all sessions and activities are subject to availability.

Delivery mode

- On campus
